

POS Power Conditioner

120VAC 1Ph 120VA-240VA

- Filtered ground circuit**
 Protects against ground loops making it ideal for Point-of-Sale systems.
- Transformer based design**
 Standard with toroidal transformer to provide isolation within a small footprint.
- Complies with ANSI/IEEE C62.41**
 Reduces normal mode noise to < 10V and common mode noise to < .5V.
- Surge Suppression**
 Category A - 6000V @ 200A, 0.5 usec risetime, 100kHz
 Category B - 6000V @ 500A, 0.5 usec risetime, 100kHz
- LED Indicator**
 Bi-color LED signaling ground fault or loss of ground.

Specifications:

MODEL	120 VA	240 VA
Amperage Rating	1A	2A
Efficiency	> 90%	
Dimensions (LxWxH)	8.4" x 7.0" x 2.3"	
Input Voltage	120 VAC (Ph-N-G)	
Input Type	6ft 5-15R Cord	
Output Voltage	120 VAC (Ph-N-G)	
Output Type	(2) 5-15R Outlets	
Compliance	UL 1012 / CSA-C22.2 No. 107.1 / ROHS	

Rear
